AI AND VOLUMES INSIDE REAL PIPELINES

Framestore Brings Hybrid AI/VFX to Sky's Christmas Campaign

• awn.com

So what: Gives you the credit structure and task split of a hybrid AI/VFX job, useful when writing your own AI line items

AI AND VOLUMES INSIDE REAL PIPELINES

Framestore delivers previs, hybrid AI and animation for Sky's Christmas campaign

• tvbeurope.com

So what: Shows AI used for previs, matte painting and character removal alongside traditional comp, a model for pitching controlled AI use

AI AND VOLUMES INSIDE REAL PIPELINES

Cinematographers' Favorite Festival Is All About AI This Year, but Artists Still Hate the Tech

• indiewire.com

So what: Cinematographers voiced bleak views while directors sounded more open, so expect clients on the same job to disagree about AI

AI AND VOLUMES INSIDE REAL PIPELINES

Standardising the illusion

• britishcinematographer.co.uk

So what: A working DP says true wide shots in a volume usually become full VFX shots, which affects how you scope and bid

AI AND VOLUMES INSIDE REAL PIPELINES

Cloud Imperium Games expands VERSA Studios partnership with Squadron 42 showcase and BTS filming

• britishcinematographer.co.uk

So what: A new large volume in Manchester, built with a specialist partner, is another UK stage option, though this job was event work

DC LEADERSHIP CHANGE

DC Studios Shakeup: James Gunn, Peter Safran Stepping Down as Co-CEOs, Marvel Vet Jeremy Latcham Named Chief Creative Of...

• indiewire.com

So what: Mixed box office and a new creative chief suggest DC's slate and vendor choices could change, so watch early announcements

UPDATE: INCENTIVES AND WHERE PRODUCTIONS GO

Carney gov't sets out how Canada's $425m funding boost will be shared

• c21media.net

So what: Money flows mainly through existing Canadian funders, with the CMF running new programmes, so check what reaches production and training

UPDATE: WHO DELIVERED THE WORK

Mando's miniatures, puppets, stop-motion and more

• befores & afters

So what: Shows ILM-led work farmed to Image Engine, Hybride, Lola and others, plus Tippett on stop-motion: a map of who gets overflow

Framestore's Sky spot puts AI inside a conventional VFX pipeline on a paid job, while cinematographers argue about it publicly.
